MWOE Solar, Inc. Announces its Official Corporate Name Change to Xunlight Corporation and its Move into a Larger Facility

Toledo (OH) based MWOE Solar, Inc. a leader in the development of low cost and flexible solar modules, today announced its official corporate name change to Xunlight Corporation (www.xunlight.com).

The corporate name change was motivated by the recent institutional financing round which accelerates the commercialisation of Xunlight's flexible and lightweight photovoltaic modules. The company's Board chose to rename the company to Xunlight to better reflect the company's product and industry affiliation.

Besides changing its name, the company also announces its move into a 122,000 sq. ft. facility at 3145 Nebraska Avenue in Toledo, Ohio. "The facility provides sufficient space to allow Xunlight to establish a 100MW solar cell fabrication line", said Dr. Xunming Deng. "This will allow us to focus on products and customers without facing operational disturbance through the initial capacity ramp-up."

About Xunlight Corporation

Xunlight Corporation, a technology spin-off from the University of Toledo, engages in the development, manufacture, and marketing of photovoltaic modules that convert sunlight into electricity. The company develops thin-film silicon based photovoltaic products and manufacturing equipment for high-throughput production of flexible and lightweight photovoltaic modules at low cost. The company was founded in 2006 and is headquartered in Toledo, Ohio.
